- Experience with testing
- Knowledge of front-end frameworks like Bootstrap, Tailwind CSS, or Material-UI.
- Experience working with cross-functional teams
- Experience with React JS
- Knowledge of web accessibility standards and best practices
- Experience with user interface and user experience design, including wireframing and prototyping.
- Understanding of how to ensure compatibility across different browsers.
- Ability to create responsive and mobile-friendly designs.

LANGUAGES

- English
- Romanian

ABOUT ME

Hello, I'm Ghenea Cozmin, a Web Developer with a strong background in web design and a passion for continuous learning. I began my journey through online courses and quickly transitioned to creating my own website templates, which I showcased in my portfolio. From a professional standpoint, I've held several positions that required a foundational understanding of web development. In my spare time, I've dedicated myself to building various web pages, constantly expanding my skills and exploring new technologies. Thank you for considering my experience, and I look forward to contributing to future projects.

WORK EXPERIENCE

QA ENGINEER

JUN 2022 - Present

Invibes Advertising

- Identified and documented issues using Jira to facilitate clear communication between quality assurance and development teams.
- Conducted API testing with Postman, verifying endpoint functionality, data integrity, and response consistency.
- Developed, executed, and maintained comprehensive test plans to ensure thorough coverage of product requirements.
- Collaborated effectively with cross-functional teams, maintaining transparent and efficient communication channels.
- Performed load testing using JMeter to evaluate system scalability and identify performance bottlenecks.

Technologies used:

- REST API, PostgreSQL, JSON, SQL

Tools used:

- Jira, Postman, Confluence, Google Sheets, JMeter, Azure Database

CAMPAIGNS TECH SUPPORT ENGINEER

JUN 2019 - JUN 2022

Invibes Advertising

- Conducted technical reviews of advertising campaigns before launch, ensuring compliance with design standards and resolving any technical issues that arose.
- Developed demo HTML pages replicating those from various publishers to demonstrate potential client projects and attract new business.
- Created scripts to optimize advertising campaigns and troubleshoot technical or design-related problems.
- Analyzed campaign spending projections using complex Excel formulas to ensure budget accuracy and financial feasibility.

JUNIOR PROGRAMMER

MAY 2018 – JUN 2019

GFK

- Developed multiple scripts to streamline workflow and improve efficiency for team members.
- Designed and implemented the front-end of a website used for data interpretation and analysis.
- Leveraged a third-party program in the F programming language to process large datasets, sorting and removing null data, and applying filters for better data interpretation.

JUNIOR SCRIPTWRITER

OCT 2017 – MAY 2018

GFK

- Utilized a third-party program to create a scripted online questionnaire, enabling users to submit responses and gather valuable data.
- Developed scripts to validate and identify potential issues in the questionnaire, addressing any errors or oversights by the scriptwriter.
- Collected response data, filtered out null entries, and prepared the clean data for interpretation and analysis.
