CAREER OBJECTIVE

My name is Ghenea Cozmin and I'm a junior Web developer with a small experience in web design but with a lot of desire to learn it, I start by learning through online classes and made some template website myself which I upload it on my portfolio, I'm sometimes a funny person but a serious one when needed. From an experience point of view I worked on several jobs which require minimum knowledge of Web developing, but in the free time worked on several pages and tried to learn as much as possible. Thank you for your time and looking forward for the next projects.
